1 August 2012

Mr Ray Carter
233 College Road
BATHURST NSW 2795

Dear Mr Carter

Sewer Access Charges

I refer to your email of 4 July 2012 regarding sewer access charges.

Councillors have been presented with an extensive report detailing the operation, policies and procedures relating to sewer access charges by Council's Director Corporate Services & Finance at its Working Party meeting held 26 October 2011.

This report was presented to Council with the detail necessary for Councillors to make a determination on a method to be used for sewer access charges.

Councillors also received an extensive submission from you and your hydraulic engineer in relation to sewer access charges, this submission was considered during the adoption of the Operating Plan.

Councillors chose to retain the SDF method as opposed to the ET method in calculating the charge for the use of sewer systems.

I trust this explains Council's position.

Yours faithfully

Greg Westman
MAYOR OF BATHURST
